President's Message

Dear MPOTAC Members - *Happy Halloween!*

Here's a big thanks for our Budget Committee, and Ed Archer's presentation on collectable vehicle appraisal at our September meeting.

If you missed PortFest on 10/1, it was a small showing for us, but a great day at the Port of Redwood City. Next, we will have a full line-up for the Mini-concours at the Magnolia of Millbrae on 10/8. Thank you all for attending these local and popular events.

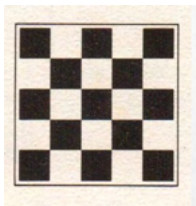

On Thursday October 27th, we will travel to Ardenwood Farm, for a taste of their Fall Festival. Look for an email, or phone call to learn more and confirm attendance.

Our October 28th regular meeting will provide our membership with the opportunity to ballot on current members interested in serving on the elected board (President, Vice President, Treasurer and Secretary). The Board of Directors has created a comprehensive budget, and is recommending a dues structure increase of \$5.00 (from 20.00 to 25.00 for e-mail & 30.00 to 35.00 for postage mail), and giving direction to our Friendship Day Committee to increase the gate fee to at least \$25.00 per vehicle attending. This notice serves to inform our current membership of a scheduled vote at the next regular meeting (10/28/22). Please attend this meeting, to share your thoughts, and cast your vote.

Just My Opinion...

By Jim Remington

What's happening to our sports cars? First, sport car manufacturers started doing away with the stick shift, leaving us with only automatics or fake manual shifting. But then it got worse. Porsche, the prince of sports cars, showed up with four doors. Then our very own American as apple pie, Mustang, came out with an SUV model. Could it get worse than that? Unfortunately, yes, now the king of all sports cars, the iconic Italian sports car, famed for its black prancing horse logo, Ferrari, is coming out with a four door SUV.

The Purosangue (good luck pronouncing that) will be equipped with a V-12 and go from zero to 60 MPH in a mere three seconds, with a top speed of 193 MPH. And for about \$400,000 you can pick up one at your local Ferrari dealer in 2023. Ferrari sold about 11,000 cars in 2021, generating more than \$5 billion in sales at roughly \$450,000 per vehicle.

This all reminds me of that sad day in 1957 when the world learned that the 1958 Thunderbird was going to four doors (I was actually too young at the time to be sad, but I should have been).

So, what's left? Brace yourselves Corvette fans, your car may be next!

I know this is an OLD car club but occasionally I'll find something regarding new cars that I'll throw in just for your information or to give you something to complain about.

Check out Ferrari's slick video:

(I wonder what our club Ferrari fan, Kevin Enderby, thinks of this development?)
