

“A Lunch to Remember”

From Hal Schuette’s idea of a COVID-19 compliant outdoor car get-together came a successful meet-up at Burlingame’s Gigi’s Café parking lot. Mid-day Wednesday September 23rd saw 22 Club members and guests, and 14 cars gather under blue skies and sunshine. Vehicle ages ranged from 1906 to 1973 (see attendees list below) and Gigi’s coned off their parking area just for MPOTAC!

Largely house-bound by the Virus since March, we all enjoyed face-to-face (with masks) socializing again. Attendees purchased great take-out food at Gigi’s window and chowed down at the patio umbrella tables. Hal asked attendees to gather after lunch and tour the lined of cars. Each driver had a three-minute window to talk about their car.

Many attendees had not known about this location and plan to return. Following are some phot highlights from Wednesday; more will appear on the MPOTAC website.

NOTE: Mr. John Marty came to Gigi’s for his regular Wednesday lunch and stayed to see the cars. We introduced ourselves and MPOTAC to him; he then returned with his ’73 Pontiac Grandville convertible for the “show & tell”. John has since applied for membership.
