## President's Message

Dear MPOTAC Members,

*Our Board wishes you a warm and happy holiday season!*

Thank you all who attended Port Fest 2022 on 10/1, and the mini-concours at the Magnolia of Millbrae on 10/8. These were great events for our new members to attend and share their stories with our club. The local Shriner's from San Mateo held a first annual car show "Fez-o-Rama" at the Expo Center on 10/15, they promise to continue this event in the future. On 10/27 we led a small group to Ardenwood Farms, enjoying the train ride, the home tour, the livestock and Blacksmith's shop, and a nice picnic lunch for a few of us. The NFL Alumni Legends car show was held at the Port of Redwood City on 10/29, with our very own Steve Marchegiani officiating, and the retired players judging the cars in attendance. Steve will give us a brief talk on the show at our January meeting. I'd like to respond to our Editor's last article about sports cars, and support the preservation of 2-door stick shifts for the iconic bond between human and machine ... celebrating the rolling art that we all love. Please continue to send photos taken at scheduled events to our editor and webmaster (via email), so they can post them for all to see.

## President's Message Continued...

On 10/28 our board presented the budget, and we voted to increase our MPOTAC annual dues to \$25.00 by email and \$35.00 by posted mail, then directed the Friendship Day Committee to raise the gate fee to at least \$25.00 per vehicle attending. We also gave an update on the By-laws Committee and invited any interested members to join us at 7:30pm on 11/21, at the Highland's Community Club. Please download the by-laws from our MPOTAC.com website in the tabs named 'members' then 'membership', to print, review and recommend improvements. We voted to keep the existing officers in place for another year, and with no objections the committee appointments will remain the same. Our Annual Installation Luncheon was approved for 11/12 by reservation only, and Bob Moll did a great job with this event.

If you've got old albums with club photos, please let me know, so we can preserve club history in 2023.

Heads-up for upcoming events:

November 25<sup>th</sup> – Meeting cancelled (Happy Thanksgiving).

December Christmas Lights Tour – (look for separate email information)

December 23<sup>rd</sup> – Meeting cancelled (Happy Hannukah & Merry Christmas)

January 27<sup>th</sup> – Regular Membership Meeting, 7:30pm at Highlands Community Club, RC.

Cynthia and I wish you and your family a healthy and happy Holiday Season,

Charlie Drechsler, Jr.

## Ever hear of Lordstown Motors?

Commercial electric vehicle startup Lordstown Motors says it has slowly started production of its first model, the Endurance pickup. As of the end of September they have built a total of two (2) trucks.

Lordstown expects to deliver 50 trucks to customers this year, and up to 450 more in the first half of 2023, as long as it can raise enough capital. Lordstown said it expected to produce 3,000 of its flagship Endurance electric trucks before the end of 2023.

The trucks are being built in an old General Motors small-car assembly plant in Lordstown, Ohio, near Cleveland that was purchased last year by Taiwan's Foxconn Technology Group, the world's largest electronics maker. Lordstown says it will look to Foxconn and other partnerships as sources of new capital.

The company has struggled to raise money and get trucks out the factory door to customers. In its quarterly filings with the U.S. Securities and Exchange Commission, its auditors raise doubts that the automaker will be in business in the coming year.

## Wrecking Yards

What car lover doesn't like touring a wrecking yard to see all the old wrecks not as they are, but as they could be after we fix them up. The members of this club do not typically go wrecking yard hunting for a car to restore, still, it's fun to look and dream of what could be.

Check out the YouTube video of Nobody Else's Auto in Great Bend, Kansas. Their inventory contains nearly 2000 vehicles ranging from the 1940's to the 1980's. Who knows, you may find a part you need. Give it a look.
